

Securely harness the power of the cloud with Azure Advanced Threat Protection

Get real-time security at enterprise scale

Use the power and scale of the cloud to help safeguard against threats that are increasing in frequency, severity, and sophistication.

Detect threats quickly

Azure Advanced
Threat Protection
monitors behavior of
users, devices, and
resources and detects
anomalies right away.

Stay focused on what's important

Get a clear, efficient, and convenient feed that surfaces the right issues on a simple attack timeline.

Why trust Microsoft with your security?

Microsoft invests more than USD \$1 billion annually on cybersecurity research and development

Microsoft employs more than 3,500 security experts completely dedicated to data security and privacy

Azure has more compliance certifications than any other cloud provider
