

WEB VULNERABILITY ASSESSMENT

WHY CHOOSE US?

- We will identify hidden vulnerabilities on your public facing websites
- We will assess and understand the open vulnerabilities on your website
- We will show you how WAF or WaaS will provide you with complete application security

HOW IT WORKS

All you have to do is enter your website URL, and you'll soon receive a report detailing all discovered vulnerabilities

KEY POINTS

- Vulnerability Manager is a free tool that scans web applications for vulnerabilities
- Provides a detailed report of all the vulnerabilities, like your own personal risk assessment
- Sign up is super quick and the results will be provided within 24 hours

Identify and fix vulnerabilities before hackers exploit them
