MANAGED XDR ADVANCED

An eXtended visibility, Detection & Response platform that is backed by a group of tenured security experts in a 24x7 Security Operations Center (SOC)

CLOUD SECURITY

Secure customers' cloud environments from unauthorized access to cloud mailboxes, admin changes in the environment, impossible logins, and brute force attacks.

EMAIL SECURITY

Comprehensive email protection that includes gateway security, account compromise, and more, minimizing the impact an attack can have on customer's email environment.

ENDPOINT SECURITY

Unifies and extends detection and response capability to endpoints, protecting them from common endpoint threats, including malware and ransomware.

NETWORK SECURITY

Detect potential threat activity on customer's network such as command-and-control connections, denial-of-service attacks, data exfiltration, and reconnaissance

SERVER SECURITY

Protect customers critical servers from attacks such as password sprays, brute force attacks, and privilege escalation
